VISITORS REGISTRATION SYSTEM

Managing visitor traffic is a daily challenge for many companies. Whether it's current and prospective clients, third-party contractors, international colleagues, service maintenance staff, or unexpected guests, keeping track of diverse visitor types can be complex. Our Visitor Registration System is designed to simplify and enhance your visitor management process, ensuring smooth operations and increased security.

BOOST ORGANIZATION DOCUMENT MANAGEMENT WITH OUR SOLUTION

1. **Register**

2. **Scan myKad/ Pasport**

3. **Issue Visitor Slip**

4. **Check-out**

VISTOR REGISTRATION STEPS

KEY FEATURES:

VISITOR CHECK-IN & CHECK-OUT
Empower visitors with self-service kiosks for quick, independent check-in and facilitate easy check-out, including gathering valuable feedback.

PRE-BOOKING & PRE-REGISTRATION EFFICIENCY
Streamline visitor management with pre-booking and pre-registration options to reduce wait times and improve efficiency.

STAGE CONTROL & REAL-TIME VISIBILITY
Manage visitor flow with stage control and stay informed with instant notifications and a live visitor dashboard.

VISITOR MOVEMENT REPORT & COMPLIANCE
Maintain comprehensive records and generate actionable reports for better insights and compliance.

INTEGRATION READINESS
Easily integrate with myKad Reader or Passport Reader, and optionally with Barrier Gate Access for enhanced security.

ENHANCED SECURITY & PERSONALIZED EXPERIENCE
Safeguard your premises through ID verification and access control integration, while tailoring the system with customizable profiles and detailed logs.
