TOSHIBA

# TCx® 900

## Evolutionary Point-of-Sale System

### MAXIMIZING POWER AND **EFFICIENCY FOR RETAIL**

The TCx® 900 POS System offers the "best-in-class" modular solution that drives smarter and faster transactions for retailers. Designed for retail, the powerful yet sleek design of the TCx 900 boasts one of the smallest footprints on the market today – giving retailers a powerful yet compact solution that scales as they grow.

This high-performance driven POS provides a lower total cost of ownership for retailers looking to perform more transactions in less time, minimizing the overall capital expense requirements. The TCx 900 is the latest in Toshiba's portfolio of retail-hardened solutions and comes fully equipped with the latest technology of the 13th generation Intel® processors, supporting higher productivity and efficiencies in-store.

### KEY **BENEFITS**

- **Utilizes** a flexible configuration that retailers value
- **Integrates** with Legacy I/O to minimize costs and serviceability
- **Increases** sales with faster transactional speed at POS
- **Offers** up to 12 years of support (5-yr production/7-yr support after end of production)

FEATURES

## **NEXT** EVOLUTION OF DISTRIBUTED SYSTEM

Retailers require modular solutions that are dependable during peak seasons, minimizing investment requirements. The TCx 900 delivers a powerful, adaptable, and compact POS system designed with features to support any retailer.

## **SMALL PACKAGING –** PREMIUM BENEFITS

Engineered with retail in mind. The small yet robust TCx 900 comes equipped with the latest generation of technology that provides retailers with the flexibility, durability, adaptability, and serviceability required for more uptime.

Open platform and tool-less access means less downtime and easy serviceability

Choice of configurations gives retailers the flexibility they need to design the right solutions for their store environment

Choice of SurePort cards to mix and match the right set of ports to support a wide variety of legacy IO devices

Ruggedized construction with steel chassis provide retailers with the durability needed to improve operations for years to come.

BENEFITS

## WHY CHOOSE **TCx 900**

The TCx 900 Distributed POS system optimizes retail with a dynamic compact solution that's flexible enough to grow with your business, robust enough to handle heavy data workloads, and reliable enough to perform the crucial day to day functionality while it supports your legacy I/O business.
