

# ENVIRONMENTAL POLICY

## **Toshiba Tec Malaysia Sdn. Bhd.**

being a leader in the Sales & Services of Printing and Retail Systems and Solutions in Malaysia, is a strong believer in environmental protection. In order to be an environmentally conscious company by operating in an environmentally responsible manner, we are committed to:

**Establishing and maintaining an Environmental Management System** to prevent or minimize any potential adverse environmental impacts relevant to the context of the organization.

**Ensuring pollution prevention practices** are in place and continual improvement on the environmental performance of our daily operations.

**Complying with all applicable compliance obligations** to which our company subscribes.

**Promoting and communicating the Environmental Policy to all employees** including persons working on-behalf and ensure it is available to the public.

**Establishing environmental objectives and targets** based on the evaluation on environmental aspects of our business activities, products and services to sustain natural resources and reduce energy consumption.
